PROFILE SUMMARY

Sr. SQL Developer with 3+ years of experience specializing in designing, optimizing, and managing robust SQL databases and data workflows for financial applications. Proven expertise in SQL programming, schema design, query optimization, and performance tuning for high-throughput financial data.

TECHNICAL SKILLS

Languages: Python (Expert), SQL, JavaScript, Bash

Backend: FastAPI, Flask, REST APIs, Microservices, SQLAlchemy, Pandas, NumPy

Databases: PostgreSQL, MySQL – SQL programming, schema design, query optimisation, indexing, performance tuning

Cloud & DevOps: Microsoft Azure (Blob Storage, Functions, AZ-204 Certified), GCP (BigQuery, Cloud Storage), Docker, Git, CI/CD Pipelines

Data & ETL: ETL/ELT Pipeline Design, Data Profiling, Anomaly Detection, Data Quality Engineering, Data Workflows

Tools: Azure DevOps, Postman, Jupyter, Linux, VS Code

PROFESSIONAL EXPERIENCE

Software Engineer

Jul 2023 – Present

BDO India LLP | Big 4 | Mumbai

- Designed and optimized SQL data models (PostgreSQL, MySQL) with advanced schema design, query optimisation, and indexing to support high-throughput financial data workflows.
- Developed and maintained production-grade Python backend services using FastAPI, structuring REST APIs and service-layer logic to interact with financial data layers.
- Built scalable ETL pipelines processing large-scale financial datasets (TDS reconciliation, BOA reporting, LDC tracking), reducing manual validation effort by 80% and enhancing data accuracy.
- Automated multi-sheet Excel report generation using openpyxl for 15+ compliance report types, eliminating manual report building.
- Deployed backend services on Azure with Docker, CI/CD pipelines, and automated monitoring for production-grade observability.
- Collaborated with cross-functional stakeholders to gather requirements and deliver iteratively within Agile/Scrum.

Software Engineer Intern

Jan 2023 – Jun 2023

BDO India LLP | Big 4 | Mumbai

- Migrated legacy financial systems to modular Python microservices, significantly optimising SQL queries and reducing data latency by 40%.
- Built automated unit and integration test suites for financial report QA, cutting defect identification time in testing cycles.

KEY PROJECTS

TDS Reconciliation & Reporting Platform

2023 – Present

BDO India LLP

- End-to-end Python backend platform featuring FastAPI microservices, a robust PostgreSQL data layer, and scalable ETL pipelines for financial compliance reporting.
- Integrated Azure Blob Storage and developed 15+ automated report types with custom anomaly detection.

IoT-Enabled Geospatial Hazard Platform

2022

National Winner – ST Innovators Challenge

- Developed a real-time data ingestion backend (Python/Flask) handling concurrent IoT sensor streams with Google Maps API integration.

EDUCATION

Sardar Patel Institute of Technology (SPIT) | Mumbai

B.Tech in Electronics and Telecommunication (Minor in Computer Science)

2019 – 2023

CERTIFICATIONS

Microsoft Certified: Azure Developer Associate (AZ-204) | Azure AI Fundamentals (AI-900) | Azure Fundamentals (AZ-900)
